

O. Réf. : AG/VF/39.09

Vitry sur Seine,  
5th October 2009

**Subject : Call for papers**

AFICEP wishes to reactivate past meeting organised with the Automotive Industry :

**« LES RENDEZ-VOUS DU CAOUTCHOUC ET DE L'AUTOMOBILE »**

The theme

**"Fluids transportation : water, air, oil, fuels, braking, power steering  
and air conditioning liquids"**

has been retained for the next meeting which will be held on:

**Thursday, 25th and Friday, 26<sup>th</sup> March 2010**

**in Issoire (South of Clermont-Ferrand) at CEERTA\* (Research and Test Centre for Automotive  
Techniques), the circuit "AUVERdrive" - [www.auverdrive.net](http://www.auverdrive.net)**

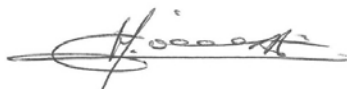

**The meeting will be coupled with a visit of the  
MICHELIN Research Centre of Ladoux (very close Clermont-Ferrand).**

The meeting is organised around two topics :

- ✓ TOPIC 1 : Actual and future car-makers' expectations : recurrent problems met in service with rubber parts, future evolutions of specifications, test, methods, design, dimensioning, simulation, ...
- ✓ TOPIC 2 : Part manufacturers/suppliers Research and Development works to match future functional demands : new materials and processes of manufacturing parts, reliability, quality, simulation and rules of behaviour, shelf life prediction, ageing, temperature resistance, ...

Welcome as a lecturer or participant of this meeting,

Yours sincerely.

Alain GIOCOSA  
Président des Manifestations Techniques

P.J. : *Call for papers*

**Call for Papers**

**AFICEP MEETING**

**« LES RENDEZ-VOUS DU CAOUTCHOUC ET DE L’AUTOMOBILE »**

**Thursday, 25th and Friday, 26th March, 2010**

**CEERTA (Research and Test Centre for Automotive Techniques),  
"AUVERdrive" – ISSOIRE – [www.auverdrive.net](http://www.auverdrive.net)**

And a Visit of the **MICHELIN** Research Centre of Ladoux (very close Clermont–Ferrand)

**On topic**

**Fluids, transportaion : water, air, oil, fuels, braking,  
power steering and air conditioning liquids**

The proposed topics will be concern :

<b>Theme 1</b>	<b>Theme 2</b>
<p>Actual and future car-makers' expectations : recurrent problems met in service with rubber parts, future evolutions of specifications, test, methods, design, dimensioning, simulation, ...</p>	<p>Part manufacturers/suppliers Research and Development works to match future functional demands : new materials and processes of manufacturing parts, reliability, quality, simulation and rules of behaviour, shelf life prediction, ageing, temperature resistance, ...</p>

Lectures proposed must be presented with a title and an abstract of 10 lines.  
To be sent **before 10<sup>th</sup> November, 2009.**

You will dispose of 30 minutes for lectures and questions

**Call for Papers : AFICEP MEETING**

**« LES RENDEZ-VOUS DU CAOUTCHOUC ET DE L'AUTOMOBILE »**

Abstract form

**To be sent before 10<sup>th</sup> November, 2009**  
AFICEP – 60, rue Auber – 94408 VITRY SUR SEINE cedex
